

Forensic and Litigation Support Services

Going beyond protecting your interests

Forensic and Litigation Support Services

Steered by experienced hands in the arena of Forensic & Litigation Support Services, Nexia TS and our partner, Smith & Williamson, are well-positioned to provide the most cost-effective services, including the preservation and collection of information from multi-dimensional sources and related investigation and dispute resolution services to serve your investigation, arbitration and litigation needs.

The intense competition in the business world, relentless pressure to deliver better financial results, individual greed and the pursuit after exorbitant lifestyles, have all contributed to increased fraud, in terms of scale and occurrence, threatening the stability and sustainability of any business.

A. COMPLIANCE REVIEW

Compliance Risk Management

Is your existing business aligned to local international/local standards? Our enterprise compliance risk management experts can support you in reviewing policy and framework for compliance to regulations such as:

- Anti-Bribery Regulations (FCPA, UKBA, SPCA etc.)
- Anti-Money Laundering Regulations (FATF40, MAS 626 etc.)
- Data Privacy Law (PDPA, GRPR, Cybersecurity Law etc.)
- Anti-Trust Compliance Monitoring (Anti-Trust Compliance, Competition Law etc.)
- Export Compliance Regulations (EAR, SGCA etc.)

Vendor Management Audit

Our vendor management audit services provide you with the information you need to understand who your suppliers/business partners are and how they are operating. Gain visibility into third parties' practices:

- Due Diligence on Business Partners;
- Review of vendor business ethics;
- Review for contractual compliance by Business Partners etc.

Training and Education

Are your employees and Business Partners aware of their obligation towards compliance? We help clients to develop training material and deliver it via classroom and/or online learning.

- Red flags to disbursement fraud;
- Anti-bribery awareness;
- Personal data protections etc.

B. INVESTIGATION / SPECIAL REVIEW

Due Diligence

We conduct checks locally and globally to help you better understand your customers, partners, or employees and provide actionable insights through:

- Pre-acquisition screening (including Mystery Customer);
- Pre-employment screening (including psychometric test);
- Company profile screening (including reputation check);
- Individual profile screening (including sanction check) etc.

Compliance Investigation

Is your employee or Business Partner transacting in accordance to established policy and regulation? We assist clients to conduct review in area such as:

- Investigating activities/transactions for compliance to global law/standards and local regulations;
- Investigating activities/transactions against company policies etc.

Fraud Investigation / Special Audit

Our team of Certified Fraud Examiners are able to deep dive and gather evidence in these area:

- Anti-Bribery;
- Shareholders dispute;
- Employee Embezzlement;
- Fraudulent Procurement etc.

Forensic Investigation

Our team of certified Forensic Technology specialist help you to identify breaches and risks in the following ways:
